Request

Rotary Club of Visalia  
P.O. Box 1216  
Visalia, CA 93279

Good afternoon Advisory Board and friends of The Salvation Army,

We pray that each of you are doing well and in good spirits. We wanted to update you on what The Salvation Army is doing in our communities.

Last week was overwhelming, but as overwhelming as it was, it was filled with so many blessing to be able to have our doors open and assist our community during this time.

The Salvation Army is working on Emergency Disaster mode, we have become emergency disaster officers and we are here to serve our community during this times of crisis. We are out here in the front lines, serving our communities with the resources we have available, but we need the help of our board and our community to continue to support us during these difficult times that we are facing. We appreciate all your support and know we could count on you to support us in any way it may be possible for you. The need is great, and it seems to only increase as they day goes by. Within the last week and this week we have serve triple the amount of families and people we normally serve, in a month. Demands are high, as we do serve our homeless, elderly and the working poor. As you know the COVID-19 pandemic has effected everyone enormously, especially those we serve. As you know most of these families live paycheck by paycheck, and could not fully prepare for the crisis we are all living in.

We are seeking for your help. Can you please help us spread the word that The Salvation Army is currently in need of non- perishable food items, toilet paper, paper towels, hygiene products, sanitary products, baby wipes, diapers. We are also accepting monetary donations. If you happen to know any special emergency COVID19 funding that is available for us to apply to help our communities with the essential needs, please let us know.

Our business hours remain the same
